

3/10/22

Week 11: WFL last week

James and Betty Robison

"Dangers of Unrighteousness"

JAMES: I wish I could say welcome with just a big happy shout, but I can't. I want us to get on shouting ground, and the high praises of God be on our lips all the time. But Betty -- by the way, I'm James Robison. This is Betty; 59 years married now. Wow! I hope y'all got a picture of that. Show everybody how we kiss most of the time. [Smacking] That's safe even in the pandemic.

Today is going to be a little bit serious, maybe very serious. We're either going to come back to God, as Joel said, and rend our heart, not our garments, don't go through the motions. We're going to have a return to God with our whole hearts. Are you not going to have to wonder what power is going to take over our country? Because the powers prevailing of darkness and deception and dissension and anti-God, anti-biblical worldview, anti-founders' worldview, anti-everything that put us in place to be blessed beyond anything any nation, including Israel, even in the Promised Land has experienced.

We have become the most blessed, benevolent country in history. We have inspired charitable hearts benevolence; done more for mission outreach than any people in history. Even though many people, too many, go to church but they're not even part of his church. They're religious people. Many of them spend most of the time convincing all the other sheep why the other sheep are wrong. And the greatest scatterers of the flock, oftentimes, are the pastors and the priests and preachers -- and that's too bad. Because when you scatter them, they're vulnerable to the slaughter.

Now then, we are permitting the slaughter of the most helpless, precious, little lives in the world.

We've even written that protection into our law. And what I want you to understand is we're training people now to obey a power other than God and his truth because there is no God truth, there is no God. I mean, certain major political parties don't even want the "Under God" anymore. And they don't want anybody praying. And they don't want anybody talking about God. In many different places like schools and academic centers, and even military and business places, high places, you can't pray publicly. In many places, they better not catch you praying privately. Chaplains are being told they can't talk about God. They can't -- and they sure can't talk about Jesus. So we're in a mess.

Betty, people don't need to wonder if communist China people coming to get us? They've already bought us. Are the Russians coming and taking over? Are they going to bomb us? Well, are we going to be blown to dust and ashes and darkness where we can't even communicate? That's what they'll do. They'd rather not do that; they'd rather just take over. And the fact is, they are. Our greatest enemy is not the Russians or the Chinese but our leaders here. Because our leaders here have become totally Marxist, progressive liberals. A socialist mentality that's anything but social blessings; it is social curses. And they're dominating us. And they've torn out every part of the first amendment. There really isn't free speech. It is controlled speech unless it is their speech. Period! And our leaders are in bed with the countries that are totally Marxist. God help us!

You don't have to wonder, Betty, if the Chinese are going to take us over, or the Russians, because we're being taken over by the same anti-God power they'll bring in. It's got to stop. Please hear me! But God, through all of his prophets, said, if you'll get right with me. Joel said, "I'll make up for the years the locusts have eaten. I'll pour out the former and latter reigns." Every prophet said if you'll just come back to me, my shelter, my shadow, the ultimate shepherd who is the Lord will lead you to green pastures. He'll restore your soul. He'll let you go through every deep, dark, dangerous, deadly valley with his abiding presence. He will prepare a table of blessings in front of all your enemies. This is our Father God that now, you can't speak of or have speech or really pursue happiness if it includes God.

All right, I don't want you to miss this. I've talked about this before, but you really need to zero

in. Romans 1:18, all the way to the end of the chapter. Now, you've got to look at this because this is precisely what we're doing: "From the moment I created the world, I revealed everything about me in what I created. Everything! So you're without excuse."

You don't have to read the Bible to see the truth. God made it very clear if you sow good seed on the unplowed, unreceptive ground, it will not grow well. Do you understand that? That is a visible, undeniable principle. If you deny the principles in this book, if you deny His Word or change it into a lie, the consequences of that action are visible to the whole world. They are absolutely catastrophic, destroying any kind of unity, any kind of harmony, any kind of real, wise, sane thinking, common sense even. You just can't deny this. But if you can't see it -- look, the birds teach you more about premarket principles than most people in Washington, and certainly most people in academic institutions.

Birds teach you. Jesus said, if you want to learn something about real life and productivity and family and success, look at the birds! Look how much they care for their nests. Look how much they care for their young. Look at how much attention they give, and the Father in heaven takes care of them. But guess what? Nobody beats them to work. The early bird gets the worm. The early bird gets everything he needs. You don't have to come to feed them. They're looking for it. The moment they can see, they'll look for it in the dark. They go to work.

Today, we're telling people, you don't need to go to work. You don't ever even need to pay your bills. As a matter of fact, we'll pretty well pay for everything you've got. In other words, that's pure communism. It's the devil! And we're headed there so fast. We're headed in -- listen, we're moving from sand to quicksand. We're moving from an accurate analysis of a terrible disease. And this is what we say to God. He says you have a disease. It's deadly. It's terminal, and it's highly contagious. Do you know what it is called? Sin! You can hear the serpent, "S-s-sin, s-s-sin." That's the disease.

You have moved from building on sand, which won't work. New Orleans is a great example; they built on sand. They not only built on sand, but they also built below sea level. Probably, it was easier for ports and the economy. But when you build on sand, it is unstable. They not only

built on sand, but they built below sea level. That's double dumb. Nature says, you don't have to read it in the Bible, don't build on sand, build on a solid foundation. To build those high-rises, they go way down and build a solid foundation. If they don't, that whole thing will topple; even when there is no sand involved, there's unsoundness involved. Double dumb is sand below sea level. But they've got triple dumb. You can build below sea level if you build a dike big enough to withstand the fiercest Category 5 storm. Well, they said they did. They got the money to. They didn't! They lied! Just like our leaders in Washington are non-stop lies. Lies! And now supported by people who go to church. Not only do they not believe the Bible, but they don't believe what they can see.

It's like we're sowing our seed on the street -- on concrete and wonder why it doesn't grow. It won't grow if you don't have good soil. The more fertile the soil, the more bountiful the productivity can be. But you still have to prepare the soil. You have to plow -- that means work. You till it, it makes it new, and when you plant it, you cover it. You don't squish it and bury it. You cover it. This is called, "I reveal myself in what I created." You can't build a beautiful masterpiece out of clay that is so hard it won't shape. God says, "I have revealed to you that if you change my..." This is all in Romans, "...if you change my word into a lie, and you're doing it because you're not glorifying me as God when you don't magnify me as the creator."

You just say we don't have a creator. We had just a big bang! Big bang! I'm a fisherman. No fisherman could be an evolutionist. You can't drop a fishing tackle box, bang, and the lures get organized. And the more you shake it, it doesn't get better. For God's sake, Lord. For your sake, for freedom's sake, what's happened?

Well, I'll let God tell you exactly what happens. He says when you change my truth into a lie, judgment starts. How -- the Russians are coming, the Chinese are coming? No! The enemy is here. And he says the moment -- the moment that you don't make me who I am, and see me in all I created, you changed it into a lie, and you're given over to the appetites I warned my people about when I sent them into the Promised Land.

The beauty and productivity and fruitfulness and potential wealth you have to be careful of

because you've never seen anything like this. And you don't want to make an idol out of it because the moment you make an idol out of it, the moment you do, your appetites are going to become your god. The beautiful appetites I gave you. You can become a glutton. You become lustful; you become greedy. You begin to live for yourself and your kingdom. You forget your neighbor. You treat My Word like it's unimportant, like it is an idle word, somebody's opinion -- they're the wrong party, the wrong tribe.

When you change my truth into a lie, you're going to be given over to your appetites, gluttony, lust, promiscuity, pedophilia, hate, selfishness, self-serving, self-seeking. It's going to control you. It will even get to the place where it is not even natural -- it's against nature. Men will start falling in love with men and having sex; women the same thing. It's all going to happen.

And by the way, it happens just as bad with heterosexuals. Any time God is not God, something other than God controls us. Like Billy Graham says, we dig our graves with our teeth. We can't control our appetites that God gave us, so judgment sets in.

And then it goes on to say it gets so bad that you're given over to what the Bible calls "a reprobate mind." Betty, it is a mind that cannot determine light from dark, noon from midnight, left from right, good from bad, good from evil. Can't think straight ever, right?

BETTY: That's right!

JAMES: You think you see some of that prevailing in our country?

BETTY: Absolutely!

JAMES: Totally crooked, lopsided thinking!

BETTY: We've turned lawlessness into the law.

JAMES: Did you just hear that? And you get rid of any attempt to enforce what is undeniably a

law! I'm sorry. I wish I -- God's told me to quit apologizing for the passion in me. I'm not angry. I'm angry at the deceiver running God's planet, ruining God's planet, dividing God's church, scattering the sheep, and slaughtering the sheep. I'm tired of it. And you need to be tired of it. And I'm telling you, we can turn it around right now.

He goes on to list everything in this last part of chapter one, down to 32; lists every ugly thing you're seeing. And he says it becomes common, but you don't even recognize what it actually is. It's you being controlled by the appetites because you wouldn't let me be the one who could help you control your appetites.

And then, do you know what the last verse says? America -- Americans, politicians, congressmen, courts, Supreme Court not only do these things and allow these things but give hearty approval to those who do them. Read your Bible. You don't have to read this, just look and see what's happening. To say all hell has broken loose is an understatement.

Now, we need to come back to God to get common sense and wisdom back in leadership, and you can do it with a ballot. Betty, the ballot is a gift from God to every American citizen. And you need to go to the poll in person, prove you're a citizen, prove your identity, and vote there. That's how you vote.

God, I do not want the insanity to rule this country one more year. I want to see us turn this Titanic ship of state away from the horrific icebergs and head towards a safe harbor. God, correct our course to a safe, secure harbor. Bless our lives so we can bless all the people you love all over the world, in Jesus' name.

Wouldn't you like to do that? This is the last week of Water for LIFE. Would you help us drill more? If possible, more than the 350 areas we've targeted? Would you help us drill a water well? The need is great. You're the miracle people are praying for. Watch prayerfully. Hey! Let's watch God make up for the years the locusts have eaten.

On the mission field

ANNOUNCER: Water! Earth's most abundant natural resource: yet out of this abundance only a tiny fraction of it is suitable for drinking. And suitable is a loose definition.

SHEILA: This is the water, this is the only water that is available to this village. You probably see it is absolutely filthy. There's animal waste all around. All this into the same water. This is unspeakable agony to me. Because the thing that I've seen on this trip is these people are doing absolutely everything they can. They walk as many hours as they have to to find some water and it is not clean water. They cannot do anything else. I wouldn't let my dogs drink this water and this is all these children have.

ANNOUNCER: While the problem here is serious, the solution is surprisingly simple, and it's already been implemented in this Central American village.

BETTY: This is a time when I don't mind watching them stand here and pour water over their head because I know it is good water.

JAMES: That's right! This is a place for which we give great praise to God in gratitude. But we need to drill hundreds of wells like this all over the world. And you can see, if you can't look at these children, look at their faces, look how happy they are, and understand the importance of clean water, it becomes the center of life; schools spring up. We want children to get an education and we want them to come and get healthy, clean drinking water. [Cheering]

End of video

In the studio

JAMES: If you get a busy, be as determined as if you knew you would get the miracle cure for somebody you love because you're giving it. Okay? We're going to send you *Bible Promises For Life*. This week, I'm sending you *Living Amazed* with a very detailed table of contents. In other words, how does a guy walk into Muhammad Ali's house and in three hours totally change the most famous person in the world's future? Read it! Because God can use you that way. How do

you stop on a parking lot and talk to teenagers and change, literally, win to Christ virtually the whole town? And then turn it into one of the most beautiful places in America? You can do it!

Last week! I want you to make the greatest gift you can because we're giving the greatest gift; we're giving life. And I'm praying we're going to get more responses than the 350 wells we're asking God for this year. Thank you, God.

God bless you. Let's pray for God to make up for the years the locusts have eaten because we're going to believe he's God and live like it. Thanks for watching.
